

150A **ALL NEW** VSR

Voltage Sensitive Relay Module

Model: VSRAN01

- Programmable design, voltage and delay time are adjustable
- Dual voltage display, displays tow battery voltage in real time
- Automatic control, charging at the same time and discharging separately
- Delay on-off function design to avoid peak and surge shock
- Ignition protection
- Assisting start function
- Water and dust proof (IP65)

- Ratings: 8-32Vdc, 150A continuous, 250A intermittent;
- Engage: 13.3Vdc, 10s delay (default)
- Disengage: 12.8Vdc, 10s delay (default)
- High voltage protection: 15.5Vdc (default)
- Operation voltage range: 10-32Vdc
- Operating current: 300mA
- Standby current: 5mA max.
- Assist starting: panel switch (once a trigger to work for 60s)
- Power studs: M6 brass and stainless steel, 5-6NM torque
- Ingress protection: IP65(main unit)
- Dims: 104*80*42mm (plastic housing)
- Net weight: 0.26Kgs
